

Advance Electronic Concepts

CUSTOM INDUSTRIAL ELECTRICAL ENCLOSURES

Features:

- Custom designed to meet customer's needs
- Made from rugged 5052-H3 aluminum
- Can be made almost any size
- Available with mounting studs
- Meets UL 508A

Description:

Each industrial grade Custom Enclosure is manufactured per UL 508A. Enclosures can be fabricated with hinged or removable covers. Removable covers may be either flat or include two sides for better wiring access. Standard 1/2" and 3/4" conduit knock-outs can be provided in quantities and locations to meet any customer requirement. Rugged 5052-H3 aluminum is used to provide superior performance and light weight. Provided hardware is stainless steel. 35 mm DIN rail is standard. Other sizes can be provided upon customer request.

Specifications:

Material: 6061-T6 Aluminum
Stainless Steel Hardware
Standard 1/2" and 3/4" conduit knock-outs available
Indoor use only
